ABOUT OUR COMPANY

Mokaila Hydraulics & Projects (Pty) Ltd is a 100% black-owned enterprise founded by historically disadvantaged individuals. Registered with the Department of Trade and Industries, we operate from our head offices in Steelpoort under the Greater Tubatse Municipality, with additional operations in Burgersfort.

Our inception was driven by a team of enthusiastic entrepreneurs who, after analyzing regional business trends, identified a strategic need to support the amplified industrial surge in the area. We position ourselves as a "strategic fit" between the needs of the target market and the physical and psychological attributes of the products we supply.

Our leadership philosophy is grounded in the belief that in a high-velocity marketplace, one must not reinvent the wheel but rather "Adopt, Adapt and Advance... and to do so creatively".

MANAGEMENT & EXPERTISE

The company is led by a dynamic management team with over 20 years of collective "hands-on" practical experience. Our core competencies span:

Business Management: SME operation, ownership, and corporate strategy.

Technical Proficiency: Mechanical operations and technical training (two and four-stroke).

Production: Production goods, accessory equipment, and operating supplies.

MISSION, VISION & OBJECTIVES

Mission Statement

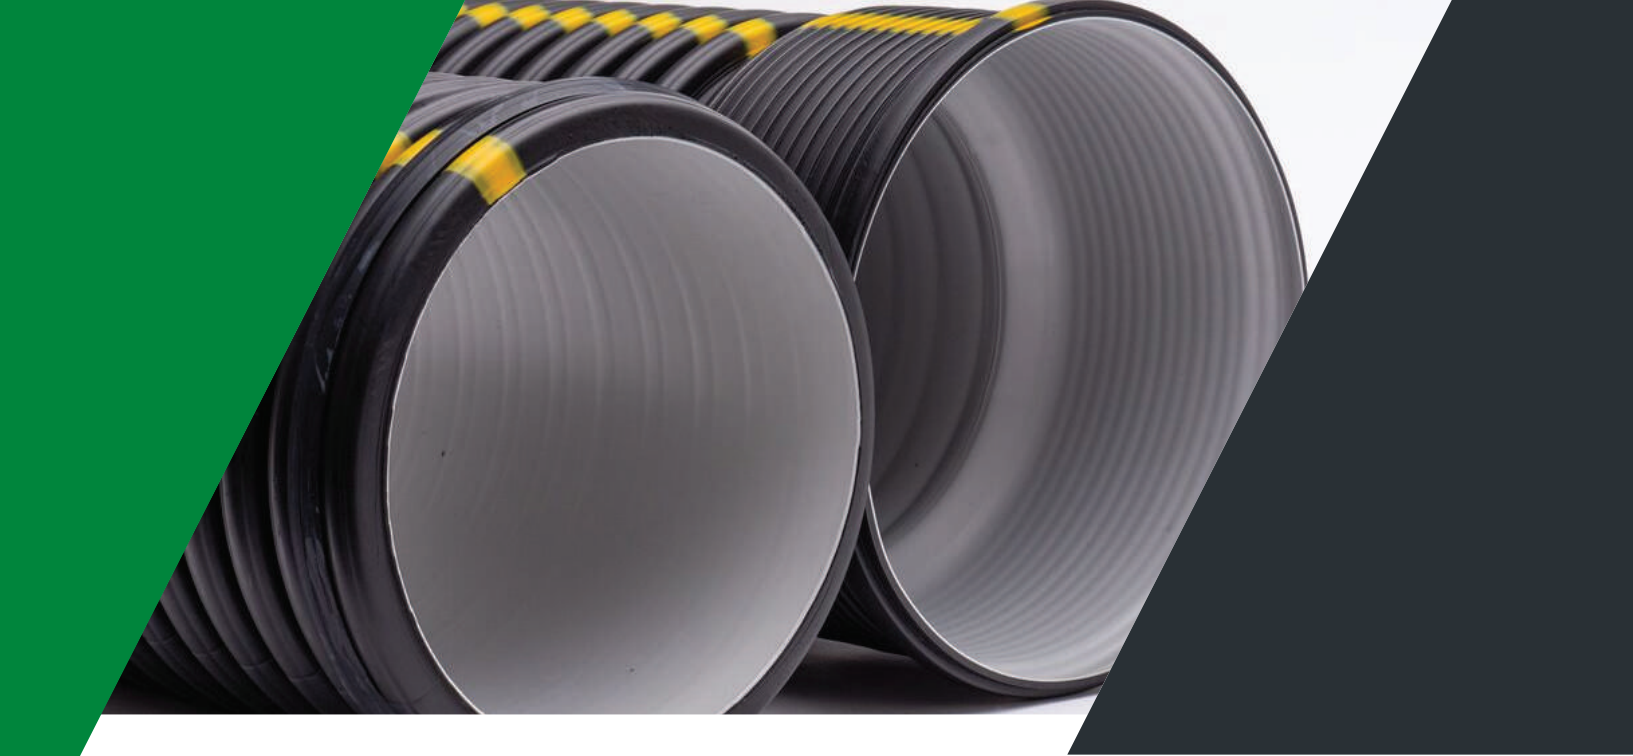

To supply and deliver materials used in the Mining Industry and other products allied to the company's technical and retail expertise. We aim to know what our customers expect and then provide it in a way that exceeds those expectations.

Business Objectives

- **Cost Efficiency:** To be the lowest delivered cost supplier in our operating industries without sacrificing service, delivery speed, or quality.
- **Growth & Stability:** To achieve sustainable earnings growth for shareholders and maintain sound financial strength to support expansion.
- **Ethical Practice:** To employ fair and ethical business practices and be admired for our conduct with all stakeholders.

Social Objectives

- **Community Development:** To actively participate in the development of the community associated with our operations and contribute to the government's Reconstruction and Development Programme (RDP).
- **Empowerment:** To address the realistic needs of community upliftment, skills development, and poverty alleviation for the previously disadvantaged.
- **Employee Development:** To operate as a learning organization that encourages innovation and self-improvement through participative management.

SPECIALIZED SERVICES & **PRODUCT OFFERINGS**

HYDRAULIC ENGINEERING & **SERVICES**

We offer a comprehensive range of hydraulic solutions, including the supply and refurbishment of critical components.

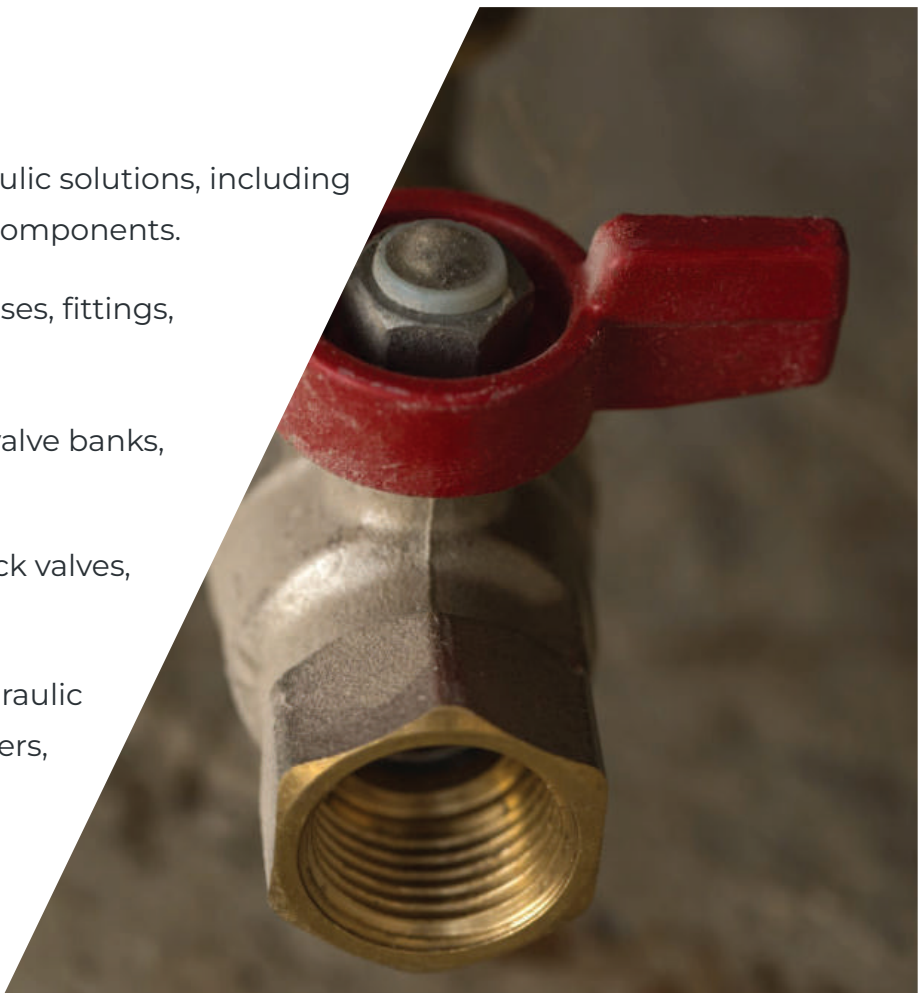

Hose & Fittings: Full range of hydraulic hoses, fittings, adaptors, and spiral guards.

Components: Hydraulic pumps, motors, valve banks, cylinders, and power packs.

Control Systems: Flow control valves, check valves, and ball valves.

Heavy Duty Repair: Refurbishment of hydraulic cylinders, LHD 1250 exhaust system purifiers, booms, buckets, and TORO 50 D purify exhaust systems.

Infrastructure: Hydraulic steel tubes, fittings, and quick couplers.

TECHNICAL ASSEMBLY STANDARDS

Our technical team follows strict protocols for hydraulic hose assembly to ensure safety and performance:

Analysis: Technicians analyze hose requirements to select the appropriate inner diameter, as incorrect sizing affects system pressure and performance.

Environmental Factors: We consider both outer and inner temperatures, specifically for high-heat environments like smelting or automobile hydraulics, to prevent hose cover damage and leakage.

Fluid Compatibility: We carefully assess fluid compatibility (including mineral oils) to improve the lifespan of hoses and fittings.

GENERAL MINING & INDUSTRIAL SUPPLIES

Mining Essentials: Tools, safety apparel, consumables, and safety equipment.

Industrial Cleaning: Supply of industrial cleaning fluids and waste rags.

Piping & Hoses: HDPE piping, radiator hoses, and furnace cooling hoses.

Equipment: Welding equipment, industrial pumps, and pneumatic accessories.

Safety Gear: Reflector tape (Yellow, Red, Green) and full PPE.

HEALTH, SAFETY, ENVIRONMENT & QUALITY (HSEQ)

Mokaila Hydraulics maintains a rigorous safety management system, ensuring full adherence to safety standards and environmental policies.

- **Routine Safety:** Weekly safety meetings with staff and daily pre-use inspections on equipment.
- **Supervision:** Regular site visits by dedicated supervisors and engineer sign-offs on all equipment logbooks.
- **Quality Control:** Regular calibration of hydraulic assembly equipment.
- **Environmental Policy:** Adherence to ISO 14000 standards, including the mandatory use of spill kits in working areas and environmental awareness training for staff.

MAJOR PROJECTS & TRACK RECORD

CLIENT	PROJECT SCOPE	DURATION	CONTACT
Modikwa Platinum Mine (North Shaft)	Supply & Maintenance of Hydraulic Hoses & Fittings	2017 – Date	Nong Phillip (064 860 0571)
Modikwa Platinum Mine (South 2)	Supply & Maintenance of Hydraulic Hoses & Fittings	2017 – Date	Maluleke Last (064 870 3662)
Samancor Mine (Lannex Site)	Supply & Maintenance of Hydraulic Hoses & Fittings	2019 – Date	Rudi Conrad (013 230 7033)
Redpath Mining SA	Supply & Maintenance of Hydraulic Hoses & Fittings	2020 – Date	Mopai Japhta (071 352 3596)
Modikwa Platinum Mine North shaft	Supply & Maintenance of Hydraulic Hoses & Fittings	2017 – Date	Mothapo Klass (082 306 5457)
Modikwa Platinum Mine Merensky	Supply & Maintenance of Hydraulic Hoses & Fittings	2021 – Date	Choma Jacob (072 610 5944)
Jaxicom mining SA	Supply & Maintenance of Hydraulic Hoses & Fittings	2021 – Date	Charmain (071 331 6543)
